Dear Parents

Season's Greetings

At this most auspicious and opportune time of the year, let us renew our zeal for a safer and healthier life. The continuing pandemic and increasing pollution statistics are a clear reminder to us that amidst this chaos, we have to devise a way to safeguard ourselves from all these maladies.

Diwali is an appropriate time to take measures to control pollution. Let's support the Government's efforts by strictly adhering to an absolutely cracker free and a safe Diwali. Let it be a festival that celebrates the spirit of humanity by safeguarding Mother Earth - our Supreme Saviour.

As adults, let us adhere to and ensure that everyone around us follows the specified directives of wearing masks, washing/sanitizing hands, maintaining social distancing and following the required health norms reiterated in the link

As the Diwali festival marks the beginning of the New Year, the New Academic session following soon thereafter, we take this opportunity to disseminate the infographic on National Education Policy 2020 issued by the CBSE, aimed at sensitizing all stake holders on important recommendations of National Education Policy-2020.

As parents, guardians let us ensure that our children not only follow but lead others to a better morrow.

With prayers that the oncoming year brings with it fresh hope and cheer.
